Percussion instruments, spare parts and sticks

Product 524633 Dixon Drum Head Clear Bass Drum 24'

Safety data sheet for percussion instruments, drum sticks and spare parts for percussion instruments

Product: Percussion instruments, drum sticks and spare parts

Uses: Percussion instruments are used to produce rhythmic tones by hitting, shaking, or rubbing. Drumsticks are used to play these instruments and replacement parts are used to repair or replace worn or damaged parts.

Materials: These products are typically made of wood, metal, plastic, leather, and various other materials depending on the specific instrument or accessory.

Risks:
Risk of injury: Sharp edges or broken parts can lead to cuts.

Noise exposure: Playing percussion instruments can result in high levels of noise exposure, which can damage hearing.

Allergic reactions: Some materials, such as certain woods or varnishes, can cause allergic reactions.

Security measures:
Handling: Handle the instruments, sticks and spare parts with care and avoid impact or dropping.

Use: Use hearing protection to protect your hearing from high noise levels.
Disposal: Properly dispose of damaged or no longer functional instruments, sticks and spare parts.

Allergic Reactions: Avoid contact with materials to which you have allergic reactions.

Storage Considerations: Store the products in a dry, safe place, away from direct sunlight and extreme temperatures.

First aid measures:
Injuries caused by sharp edges: Clean the wound thoroughly and apply a sterile compress.

Noise damage: If hearing problems or ear pain persist, see a doctor.

Allergic reactions: Rinse the affected area thoroughly with water and seek medical attention if symptoms are severe.
