

Cymbals

Product 500210 Anatolian® Baris Crash 20"

Safety data sheet for drum cymbals

Product: Drum cymbals (e.g. Ride, Crash, Hi-Hat, Splash, China)

Use: Drum cymbals are used to create tones and sounds in musical pieces. They are used in various musical styles and by musicians worldwide.

Materials:

Main material: bronze (B20, B8), brass, copper alloys

Surface treatment: Polished, hammered, painted

Risks:

Mechanical danger: Improper use or damaged pools can lead to injuries (e.g. cuts, bruises).

Noise pollution: The high sound level of drum cymbals can lead to hearing damage if there is inadequate hearing protection.

Choking hazard: Small parts such as screws or washers can be swallowed, which is particularly dangerous for children.

Security measures:

Handling: Use the drum cymbals only according to the manufacturer's instructions and ensure proper assembly and fastening.

Use: Check the cymbals regularly for wear or damage and replace defective cymbals immediately.

Storage: Store the pools in a dry, cool place, away from direct sunlight and extreme temperatures.

Protection: Wear hearing protection when using to avoid hearing damage. Make sure that small parts do not fall within the reach of children.

First aid measures:

Mechanical Injuries: Treat any injuries and seek medical attention if necessary.

Noise Damage: Get medical attention if you experience any signs of hearing loss or ear pain.

Choking Hazard: Seek medical attention immediately if any part is swallowed.
