

Microphones and microphone accessories

Product 667120 Catfish Pop Blocker, schwarz

Safety Data Sheet for Microphones and Accessories

Use: Microphones are used to record and amplify sounds. Accessories such as microphone stands, pop filters and cables support the use of microphones.

Materials:

Microphones: metal housing, electronic components (capacitor, membrane, capsule)

Microphone stand: metal (e.g. steel, aluminum), plastic

Pop filter: plastic, metal frame, nylon or foam

Cable: copper wire, plastic insulation (e.g. PVC, TPE), shielding materials (e.g. braided copper)

Risks:

Electrical Hazard: Risk of electric shock from damaged or defective microphones and cables.

Risk of injury: Sharp edges or broken parts can lead to cuts.

Risk of breakage: Improper handling can lead to breakage and injury.

Choking hazard: Small parts can be swallowed, which is particularly dangerous for children.

Allergic Reactions: Some materials may cause allergic reactions.

Security measures:

Handling: Use the microphones and accessories only according to the manufacturer's instructions.

Usage: Regularly check microphones and cables for wear or damage and replace defective parts.

Storage: Store products in a cool, dry place, away from direct sunlight and extreme temperatures.

Electrical Safety: Make sure microphones and cables are properly connected and there are no loose connections.

Allergic Reactions: Avoid contact with materials to which you have allergic reactions.

First aid measures:

Electric shock: Immediately disconnect the device from the power source and seek medical attention.

Cuts: Clean the wound thoroughly and apply a sterile compress.

Burn injuries: Cool the affected area and seek medical attention if necessary.

Choking Hazard: Seek medical attention immediately if any part is swallowed.

Allergic reactions: Rinse the affected area thoroughly with water and seek medical attention if symptoms are severe.
