

Micro mesh, polishing cloth, sandpaper

Product 683811 Micro-Mesh MM 1800 Blatt 8x15 cm

Safety Data Sheet for Micro Mesh

Usage: Micro-Mesh is used for grinding, polishing and finishing surfaces. It is often used in areas such as furniture repair, restoration, model making, and instrument making.

Materials:

Carrier material: textile (polyester or cotton)

Coating: Elastic latex layer

Grinding crystals: aluminum oxide or silicon carbide

Risks:

Dust generation: Grinding can produce fine dust that can irritate the respiratory tract.

Mechanical hazard: Improper use can result in injury from sharp edges or abrasion.

Allergic Reactions: Some materials may cause allergic reactions in sensitive individuals.

Security measures:

Handling: Use Micro-Mesh only according to the manufacturer's instructions.

Use: When sanding, wear safety glasses, a dust mask and gloves to protect yourself from dust and mechanical injuries.

Storage: Store the product in a dry, cool place, away from direct sunlight and extreme temperatures.

Disposal: Dispose of used abrasive materials in accordance with local waste disposal regulations.

First aid measures:

Skin contact: If skin irritation occurs, clean the affected area thoroughly with soap and water.

Eye contact: In case of eye contact, rinse eyes under running water for at least 10 minutes and seek medical attention.
