

Multi purpose oils

Product 705204 Ballistol Universalöl Spray 200 ml

Safety Data Sheet for Universal Oil

Use: Universal oil in spray form is used to lubricate, clean and protect moving parts and surfaces.

Materials:

Main ingredient: mineral oil or synthetic oil

Propellant: Propane, butane or other propellants

Additives: preservatives, anti-corrosion agents

Risks:

Fire hazard: The spray is highly flammable and should be kept away from open flames.

Health Hazard: Some ingredients may cause irritation upon skin contact or inhalation.

Choking Hazard: Small amounts of oil can be swallowed, which is particularly dangerous for children.

Pressure container: The container is under pressure and must not be opened by force or burned, even after use.

Environmental hazard: Improper disposal can harm the environment.

Security measures:

Handling: Use the spray only according to the manufacturer's instructions and wear gloves to avoid skin contact.

Usage: Keep the spray away from open flames and heat. Use it only in well-ventilated rooms.

Storage: Store the spray in a cool, dry place, away from direct sunlight and extreme temperatures. The container must not be exposed to temperatures above 50 °C.

Care: Follow the manufacturer's care instructions to keep the devices in good condition.

Disposal: Dispose of the spray in accordance with local chemical waste regulations.

First aid measures:

Skin contact: In case of skin contact, clean the affected area thoroughly with soap and water. If symptoms persist, seek medical attention.

Eye contact: In case of eye contact, rinse eyes under running water for at least 10 minutes and seek medical attention.

Inhalation: If inhaled, provide fresh air and seek medical attention if you have difficulty breathing.

Ingestion: If swallowed, seek medical attention immediately and have the product packaging ready.
