

Adhesive tapes, barrier tapes

Product 790840 Caline Hook & Loop Tape

Safety Data Sheet for adhesive tapes, barrier tapes

Usage: These products are used for fastening, marking, sealing and locking in various applications such as construction, household or transportation.

Materials:

Carrier material: plastic (e.g. PVC, polypropylene), textile (e.g. cotton, polyester)

Adhesive: acrylic, rubber, silicone

Risks:

Chemical hazard: The adhesive may cause skin irritation or allergic reactions in sensitive people.

Fire Hazard: Some types of tape may be flammable at high temperatures or near flames.

Choking Hazard: Small sections can be swallowed, which is particularly dangerous for children.

Risk of injury: Improper handling can lead to cuts, especially with sharp edges.

Security measures:

Handling: Use the products only according to the manufacturer's instructions.

Use: If necessary, wear protective gloves to avoid skin contact and use scissors or cutters safely.

Storage: Store products in a cool, dry place, away from direct sunlight and extreme temperatures.

Disposal: Dispose of tape and barrier tape in accordance with local waste disposal regulations.

First aid measures:

Skin contact: If skin irritation occurs, clean the affected area thoroughly with soap and water. If symptoms persist, seek medical attention.

Eye contact: In case of eye contact, rinse eyes under running water for at least 10 minutes and seek medical attention.

Inhalation: If you inhale fumes, move to fresh air and seek medical attention if you have difficulty breathing.

Ingestion: If swallowed, seek medical help immediately and have the product packaging ready
